

Confirmation of Compliance with Zajednica Tehničke Kulture Osječko-baranjske županije Standards

We hereby confirm that the worksheets created within the framework of Erasmus+ project Masters of Technics have been reviewed from a methodological perspective and fully comply with the standards set by the Zajednica Tehničke Kulture Osječko-baranjske županije (Association of Technical Culture Osijek – Baranja county) for use in schools. The materials are aligned with the educational objectives of technical culture, fostering hands-on learning and skill development in accordance with best practices for technical education in Croatia.

The worksheets have been designed to support a diverse range of student abilities and are suitable for integration into the technical education curriculum, providing both theoretical knowledge and practical application opportunities for students.
